## CALDERDALE LOCAL PLAN

## SCHEDULE OF MINOR BOUNDARY CHANGES TO GREEN BELT PAPER

Calderdale Metropolitan Borough Council **2020** 

## SCHEDULE OF MINOR BOUNDARY CHANGES TO GREEN BELT PAPER

The production of this paper has been necessitated following receipt of Pre-hearing Note 3 from the Inspector to the Council dated 11 December 2019. The note contained a number of queries primarily relating to matters due to be covered by the Stage 2 hearings. Query 1 is listed below and deals with minor changes to the Green Belt.

Query 1: The Council's Technical Paper on Exceptional Circumstances for the release of Green Belt (EV09) (page 13) indicates that 27 hectares of Green Belt release is proposed in the Local Plan through minor changes to Green Belt boundaries. The Council is requested to direct me to, or provide, a document/note which outlines these individual changes and the reasons for the changes (and includes site maps detailing each change).

This paper should be read in context with the Council's Technical Paper on Exceptional Circumstances for the release of Green Belt (EV09) and Chapter 19 of the Calderdale Local Plan. Each location is identified on the accompanying maps with detailed proposals for any locations where it is concluded that the boundary should be realigned.

Table 1: Green Belt Additions

Site Ref	Longitude	Latitude	Minor/Major	Reason for Change
GBA001	409555	426160	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundaries of residential properties to
				the South West.
<u>GBA002</u>	395300	432572	Minor	The GB boundary does not appear to
				follow current recognisable features on
				the ground. It is considered more
				appropriate to follow the boundaries of
				the road/track to the North.
<u>GBA003</u>	396946	426605	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the residential property
				to the South East.
<u>GBA004</u>	397090	426904	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBA005</u>	399655	427315	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBA006</u>	402553	418652	Minor	The GB boundary does not appear to
				follow current recognisable property

				this location to more accurately reflect
				physical features on the ground in order
001000	405.462	422224		to make it more defined and defensible.
<u>GBA029</u>	405462	422824	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
		1		to make it more defined and defensible.
<u>GBA030</u>	405546	422866	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBA031</u>	405603	425241	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the residential property
				to the North East.
<u>GBA032</u>	405607	425206	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the residential property
				to the North.
<b>GBA033</b>	405662	425221	Minor	The GB boundary does not appear to
				follow current recognisable features on
				the ground. It is considered more
				appropriate to follow the boundaries of
				the road to the North.
GBA034	405695	428223	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundaries of the residential
				properties to the North.
GBA035	405712	428273	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the residential property
				to the South East.
GBA036	405836	426482	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
<u> </u>	L	1		

				to make it more defined and defensible.
GBA037	405888	419998	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA038	406009	424341	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA039	406015	423208	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA040	406022	426557	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the residential property
				to the North West.
GBA041	406039	426712	Minor	The GB boundary currently bisects a
				building. It is considered more appropriate
				to include the building in the GB in order
				to create a more defined and defensible
				GB boundary.
<u>GBA042</u>	406040	424357	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA043	406195	426508	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA044	406205	426502	Minor	The GB boundary does not appear to
				follow recognisable features on the
				ground at this location. The boundary
				should be redrawn to follow the edge of
				the building located to the South in order
				to create a more defined and defensible
CD 4 C 4 E	406307	426467	DA's a	GB boundary.
<u>GBA045</u>	406207	426497	Minor	The GB boundary does not appear to
				follow recognisable features on the
				ground at this location. The boundary
				should be redrawn to follow the edge of
				the buildings located to the South and
				West in order to create a more defined
CDAGAC	406220	426792	Minor	and defensible GB boundary.
<u>GBA046</u>	406229	426782	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.

				to make it more defined and defensible.
<u>GBA063</u>	406901	428366	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBA064</u>	406903	426954	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the residential property
CDAOCE	400000	427400	D.A. in a co	to the South West.
<u>GBA065</u>	406906	427190	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the residential property
				to the East.

CDAOCC	400000	427202	Minor	The CD hours dame should be as discussed
<u>GBA066</u>	406986	427203	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
	40=04=	100000	1.4	to make it more defined and defensible.
GBA067	407015	426656	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the residential property
				to the North West.
<u>GBA068</u>	407021	427145	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundaries of the residential
				properties to the South West.
<u>GBA069</u>	407035	426842	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA070	407041	426823	Minor	The GB boundary bisects a building. It is
				considered more appropriate for the GB
				boundary to follow the outline of this
				building in order to create a more defined
				and defensible GB boundary.
GBA071	407063	426811	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundaries of the residential property
				to the South and the public highway to
				the East.
GBA072	407066	426500	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundaries of the residential
				properties to the North East and East.
GBA073	407150	426163	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundaries of the residential
				properties to the South.
GBA074	407461	419298	Minor	The GB boundary does not appear to
<u> </u>				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundaries of the residential
				properties to the South East and South
				West.

				the boundary of the residential property
				to the North East.
<u>GBA173</u>	413118	423028	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBA174</u>	413235	425982	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundary of the property to the
				South.
GBA175	413415	423707	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA176	413556	422218	Minor	The GB boundary should be redrawn in
<u> </u>	123330	.22210		this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA177	413449	423659	Minor	The GB boundary currently cuts through a
GBA177	413443	423039	IVIIIIOI	number of buildings. It is considered more
				appropriate to include the buildings in the
				GB in order to create a more defined and
CD 4470	442502	422024	D dim a u	defensible GB boundary.
<u>GBA178</u>	413503	422831	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBA179</u>	413479	422779	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBA180</u>	413597	425592	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBA181</u>	413696	422563	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
				the boundaries of the residential
				properties to the South.
<u>GBA182</u>	413752	425480	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It is
				considered more appropriate to follow
GBA182	413752	425480	Minor	considered more appropriate to follow the boundaries of the residential properties to the South.  The GB boundary does not appear to follow current recognisable property boundaries or features on the ground. It is

				this location to more accurately reflect
				physical features on the ground in order to make it more defined and defensible.
GBA184	414147	424824	Minor	The GB boundary should be redrawn in
<u>UDA104</u>	41414/	424024	IVIIIIOI	this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA185	414246	425461	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground in
				this location. It is considered more
				appropriate to redraw the boundary to
				follow the edge of the public highway in
				order to create a more defined and
				defensible GB boundary.
<u>GBA186</u>	414255	425363	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
004407	44.40.60	405.474	1	to make it more defined and defensible.
<u>GBA187</u>	414263	425474	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground in this location. It is considered more
				appropriate to redraw the boundary to
				follow the edge of the public highway in
				order to create a more defined and
				defensible GB boundary.
GBA188	414428	421142	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBA189	414541	425552	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground in
				this location. It is considered more
				appropriate to redraw the boundary to
				follow the edge of the access track in
				order to create a more defined and
				defensible GB boundary.
<u>GBA190</u>	414573	421176	Minor	The GB boundary currently cuts through a
				building. It is considered more appropriate
				to include the building in the GB in order
				to create a more defined and defensible
CD 4404	41.464.0	425406	NA:nc:	GB boundary.
<u>GBA191</u>	414618	425196	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground in
	L			this location. It is considered more

				appropriate to redraw the boundary to follow the edge of the access track in order to create a more defined and defensible GB boundary.
GBA192	414728	425560	Minor	The GB boundary should be redrawn in this location to more accurately reflect physical features on the ground in order to make it more defined and defensible.
GBA193	416568	422579	Minor	The GB boundary should be redrawn in this location to more accurately reflect physical features on the ground in order to make it more defined and defensible.

Table 2: Green Belt Deletions

Site Ref			Minor/Major	Reason for Change
GBD001	396647	428466	Minor	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground. It
				is considered more appropriate to follow
				the boundaries of the residential
				properties to the North.
GBD002	396679	428483	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBD003	396770	422815	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBD004	396954	426607	Minor	The GB boundary currently includes
				residential gardens. It is considered more
				appropriate to exclude the gardens from
				the GB in order to create a more defined
				and defensible GB boundary.
GBD005	396962	426607	Minor	The GB boundary currently includes part
				of a residential garden. It is considered
				more appropriate to exclude the garden
				from the GB in order to create a more
				defined and defensible GB boundary.
<u>GBD006</u>	396970	426606	Minor	The GB boundary currently includes part
				of a residential garden. It is considered
				more appropriate to exclude the garden
				from the GB in order to create a more
				defined and defensible GB boundary.
<u>GBD007</u>	396979	426607	Minor	The GB boundary currently includes part
				of a residential garden. It is considered
				more appropriate to exclude the garden
				from the GB in order to create a more
				defined and defensible GB boundary.

CDDOOG	207701	42CE1C	Minor	The CD houndary should be reduced in
<u>GBD008</u>	397791	426516	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
	207252	105110		to make it more defined and defensible.
<u>GBD009</u>	397969	426142	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBD010</u>	398011	426957	Minor	The GB boundary cuts through a
				residential property and its garden. It
				does not appear to follow current
				recognisable property boundaries or
				features on the ground and it is
				considered more appropriate to follow
				the boundary of the adjoining residential
				property to the South West.
<u>GBD011</u>	398519	428207	Minor	The GB boundary cuts through school
				grounds and part of a school building. It
				does not appear to follow current
				recognisable property boundaries or
				features on the ground and it is
				considered more appropriate to follow
				the edge of the hard standing within the
				school grounds.
GBD012	398582	428039	Minor	The GB boundary currently includes a
				number of residential gardens. It is
				considered more appropriate to exclude
				the gardens from the GB in order to
				create a more defined and defensible GB
				boundary.
GBD013	399666	427342	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBD014	399680	427381	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBD015	402548	418671	Minor	The GB boundary currently includes part
				of a residential garden. It is considered
				more appropriate to exclude the garden
				from the GB in order to create a more
				defined and defensible GB boundary.
GBD016	402779	418627	Minor	The GB boundary does not appear to
	.52,7,5	,		follow current recognisable property
				boundaries or features on the ground. It
				is considered more appropriate to follow
				the boundary of the access track to the
				North.
GBD017	402843	418604	Minor	The GB boundary does not appear to
GDD011	402043	410004	IVIIIIOI	·
L	1			follow current recognisable property

		T	T	T
				boundaries or features on the ground. It
				is considered more appropriate to follow
				the edge of the access track to the South
				of 67 Bar Lane.
<u>GBD018</u>	403264	419206	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBD019</u>	403344	418756	Minor	The GB boundary cuts through a
				residential property. It does not appear
				to follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
				exclude the property from the GB in
				order to create a more defined and
				defensible GB boundary.
<u>GBD020</u>	403492	424941	Minor	The GB boundary cuts through the
				curtilage of a residential property. It does
				not appear to follow current recognisable
				property boundaries or features on the
				ground and it is considered more
				appropriate to exclude the curtilage from
				the GB in order to create a more defined
				and defensible GB boundary.
GBD021	403607	419088	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBD022</u>	403621	424671	Minor	The GB boundary cuts through a number
				of residential gardens. It does not appear
				to follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
				exclude the gardens from the GB in order
				to create a more defined and defensible
				GB boundary.
<u>GBD023</u>	403851	419479	Minor	The GB boundary cuts through the
				curtilage of a residential property. It does
				not appear to follow current recognisable
				property boundaries or features on the
				ground and it is considered more
				appropriate to exclude the curtilage from
				the GB in order to create a more defined
				and defensible GB boundary.
<u>GBD024</u>	403853	425067	Minor	The GB boundary cuts through a number
				of residential gardens. It does not appear
				to follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
				exclude the gardens from the GB in order

				to create a more defined and defensible
000005	402060	425007	1	GB boundary.
<u>GBD025</u>	403860	425037	Minor	The GB boundary cuts through a number
				of residential gardens. It does not appear
				to follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
				exclude the gardens from the GB in order
				to create a more defined and defensible
				GB boundary.
<u>GBD026</u>	403860	426371	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBD027	403865	423209	Minor	The GB boundary cuts through a
				residential garden. It does not appear to
				follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
				exclude the garden from the GB in order
				to create a more defined and defensible
				GB boundary.
GBD028	403882	426231	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
GBD029	403994	423299	Minor	The GB boundary cuts through a number
				of residential gardens. It does not appear
				to follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
				exclude the gardens from the GB in order
				to create a more defined and defensible
				GB boundary.
GBD030	404051	423280	Minor	The GB boundary cuts through three
				residential properties and their curtilages.
				It does not appear to follow current
				recognisable property boundaries or
				features on the ground and it is
				considered more appropriate to exclude
				the properties and their curtilages from
				the GB in order to create a more defined
				and defensible GB boundary.
GBD031	404098	423280	Minor	The GB boundary currently includes part
22232			1	of a residential garden. It is considered
				more appropriate to exclude the garden
				from the GB in order to create a more
				defined and defensible GB boundary.
GBD032	404126	423275	Minor	The GB boundary should be redrawn in
300032	707120	723273	IVIIIIOI	this location to more accurately reflect
				this location to more accurately reflect

				whereight factors are the age of the col
				physical features on the ground in order to make it more defined and defensible.
CDD022	404160	424620	Minor	
<u>GBD033</u>	404160	424639	IVIIIOr	The GB boundary does not appear to
				follow current recognisable property
				boundaries or features on the ground in
				this location. It is considered more
				appropriate to redraw the boundary to
				follow the edge of the public highway in order to create a more defined and
				defensible GB boundary.
CDD034	404230	426281	Minor	The GB boundary does not appear to
<u>GBD034</u>	404230	420201	IVIIIIOI	follow current recognisable property
				boundaries or features on the ground in
				this location. It is considered more
				appropriate to redraw the boundary to
				follow the edge of the public highway in
				order to create a more defined and
				defensible GB boundary.
GBD035	404270	426270	Minor	The GB boundary currently includes a
<u>GDD033</u>	404270	420270	IVIIIIOI	residential building and cuts through a
				number of residential gardens. It is
				considered more appropriate to redraw
				the boundary to exclude the building and
				gardens in order to create a more defined
				and defensible GB boundary.
GBD036	404273	426210	Minor	The GB boundary currently cuts through a
				residential building and garden. It is
				considered more appropriate to redraw
				the boundary to exclude the building and
				garden in order to create a more defined
				and defensible GB boundary.
GBD037	404298	419711	Minor	The GB boundary should be redrawn in
				this location to more accurately reflect
				physical features on the ground in order
				to make it more defined and defensible.
<u>GBD038</u>	404413	419549	Minor	The GB boundary currently includes part
				of a residential garden. It is considered
				more appropriate to exclude the garden
				from the GB in order to create a more
				defined and defensible GB boundary.
<u>GBD039</u>	404441	419582	Minor	The GB boundary currently includes part
				of a residential garden. It is considered
				more appropriate to exclude the garden
				from the GB in order to create a more
				defined and defensible GB boundary.
<u>GBD040</u>	404471	424275	Minor	The GB boundary cuts through a
				residential curtilage. It does not appear to
				follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
			1	exclude the curtilage from the GB in

				order to create a more defined and
				defensible GB boundary.
GBD041	404534	424248	Minor	The GB boundary cuts through a
<u>GBD041</u>	404334	424240	IVIIIIOI	residential curtilage. It does not appear to
				follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
				exclude the curtilage from the GB in
				order to create a more defined and
				defensible GB boundary.
<u>GBD042</u>	404550	424197	Minor	The GB boundary cuts through a
				residential curtilage. It does not appear to
				follow current recognisable property
				boundaries or features on the ground and
				it is considered more appropriate to
				exclude the curtilage from the GB in
				order to create a more defined and
				defensible GB boundary.
